MACHINERY SALES

J&P's Machinery acquire used and surplus machinery direct from some of Australia's largest mining companies, brokers, commercial businesses and through the deconstruction projects completed by J&P Deconstruction.

This equipment is then graded, and where required refurbished to our clients specifications and transported direct to our clients, locally, nationally and overseas.

REFURBISHMENT

J&P Machinery can coordinate the repair, refurbishment, reengineering or deconstruction of machinery for parts, as an additional value added service to our clients.

LOGISTICS

J&P Machinery are located close to major road, rail and port infrastructure. Their team is experienced in coordinating the logistics globally, and locally involving their own fleet of prime mover and trailers.
